

PROPOSED SOLUTION

Team ID	PNT2022TMID46252
Project Name	IOT based Smart crops protection system for agriculture
Team Members	Sneha, Monisha, Sugashini, Gokila.

PROPOSED SOLUTION

- ▶ List steps taken to solve the problem such as but not limited to:
 - ▶ Research RFID systems and how they work.
 - ▶ Research Arduino microcontrollers.
 - ▶ Design an RFID based system with an Arduino microcontroller.
 - ▶ Finding reasonable resources to obtain hardware needed for this project.
 - ▶ Writing custom code for Arduino.
 - ▶ Configuring hardware and software.
 - ▶ Troubleshooting issues with hardware/software.
 - ▶ Testing in a real-world environment.
 - ▶ Verifying results
